

Ângelo Azevedo

✉ ang3lo@azevedos.eu.org  angelo-azevedo  ang3lo-azevedo  +351 967 572 352  Lisbon, Portugal

Cybersecurity focused Computer Science student driven by a deep curiosity for system internals, vulnerability research, and security engineering. Interested in **forensics**, **vulnerability assessment**, **platform hardening**, and building reliable tools for real users. Knowledge spans **post-exploitation**, **security tooling**, **incident response**, and **automation**, with hands-on experience in STT and Department of Informatics Engineering (DEI) related projects.

Education

 Instituto Superior Técnico M.Sc. in Computer Science and Engineering Specialization: Cyber-Security & IT Systems	2025 - Present Lisbon, Portugal GPA: 18/20
 Instituto Superior de Engenharia de Lisboa B.Sc. in Computer Science and Computer Engineering	2022 - 2025 Lisbon, Portugal

Experience

 Teaching Assistant (CSF) Instituto Superior Técnico (IST)	2026 - Present
Teaching Assistant for the Cybersecurity Forensics (CSF) course, actively helping to prepare the course project.	
 Forensics Instructor Security Team @ Técnico (STT)	2026
Created and taught forensics classes for the STT team members (link).	
 Red Team & Security Auditor Er3bUs Security Team (Técnico)	Feb. 2026 - Present
- Leading security audit of GameCourse with a red team composed of some elements from STT (Security Team@Técnico). - Identified critical vulnerabilities in staging and prepared the security report.	
 Research Initiation Grantee Instituto Superior Técnico (IST)	Oct. 2025 - Present
- Developing the OASIS website (oasis.tecnico.ulisboa.pt) for the research group. - Teaching the Experimenta o Técnico initiative (link) and creating materials for robotics, game development, and satellites activities.	

Projects

 Voltage OS Android Contributions	2025 - Present
Developed device trees and kernel patches for Nothing Phone (1). Maintained AOSP based custom ROM support.	
 root-my-nothing	2026
Developed a temporary root exploit for Nothing Phone (1) using CVE-2026-43499 (GhostLock).	
 NixOS Configuration & Dotfiles	2024 - Present
Declarative system configuration using Nix for reproducible development environments, and published custom Nix User Repository (NUR) packages (link).	
 Minepanel	2025 - Present
- Full-stack Minecraft management platform with Next.js frontend, NestJS backend. - Implemented internationalization system, Docker deployment, and real-time server management.	

Awards

 Academic Excellence Award
2022
Received excellence award for best new students

Skills & Languages

 Programming: Python, Bash, C, Go, Java, Kotlin, JS/TS, SQL
 Platforms & DevOps: Linux, Android (AOSP), NixOS, Windows, Docker, Git, CI/CD, Nix, Ansible, Terraform
 Security Tools: Wireshark, Nmap, Burp Suite, Ghidra, IDA, Volatility, Autopsy, YARA, Splunk, Frida, GDB
 Languages: Portuguese (Native), English (Fluent)

Cybersecurity Competitions

 Cyber Security Challenge PT & ECSC	2026
- Qualified through the CSCPT (link) to represent Portugal, and selected as Team Captain for the National Team at the 2026 ECSC (link). - Coordinating team strategy and tackling complex security challenges against top international talent.	
 BSides Lisbon CTF	2025
2nd Place - Competed in diverse security challenges demonstrating practical cybersecurity skills.	
 Security Team @ Técnico (STT)	2025 - Present
- Técnico's Student CTF Team - #1 CTF team in Portugal, 55th worldwide. Active member participating in numerous CTF competitions. - Specialization in forensics, web and reverse engineering challenges.	
 r4ph3cks CTF Team	2022 - Present
Founder & Leader of university CTF team.
