

Ângelo Azevedo

📍 Lisbon, Portugal ✉ ang3lo@azevedos.eu.org 🌐 angelo-azevedo 🔄 ang3lo-azevedo 📧 @ang3lo.01 📞 +351 XXX XXX XXX

Computer Science student specializing in **cybersecurity**, seeking roles in **security engineering** and **vulnerability research**. Proven hands-on experience in **forensics**, **incident response**, and **platform hardening** through academic, red-team, and STT projects. Strong focus on security tooling and automation, backed by competitive CTF results and technical audits.

🎓 Education

 Instituto Superior Técnico M.Sc. in Computer Science and Engineering Specialization: Cyber-Security & IT Systems	2025 - Present Lisbon, Portugal GPA: 18/20
 Instituto Superior de Engenharia de Lisboa B.Sc. in Computer Science and Computer Engineering	2022 - 2025 Lisbon, Portugal

🏢 Experience

 Teaching Assistant (CSF) Instituto Superior Técnico (IST)	2026 - Present
Teaching Assistant for the Cybersecurity Forensics (CSF) course, actively preparing and grading the final course project for over 100+ students.	
 Forensics Instructor Security Team @ Técnico (STT)	2026
Created and delivered forensics classes to 30+ STT team members, enhancing the team's incident response and analysis capabilities (link).	
 Red Team & Security Auditor Er3bUs Security Team (Técnico)	Feb. 2026 - Present
- Led a comprehensive security audit of the GameCourse platform with a 5-member red team from STT (Security Team@Técnico). - Discovered and reported 4+ critical vulnerabilities in staging, delivering a detailed security report and remediation strategies.	
 Research Initiation Grantee Instituto Superior Técnico (IST)	Oct. 2025 - Present
- Developing and maintaining the OASIS website (oasis.tecnico.ulisboa.pt), serving as the primary portal for a research group of 20+ researchers. - Preparing to teach the upcoming Experimenta o Técnico initiative (link), developing educational materials for robotics, game development, and satellites activities.	
 Programming Teacher SharkCoders	Dec. 2024 - Jun. 2025
Taught Python and automation to classes of 15+ children and teenagers per semester.	

</> Projects

 Voltage OS Android Contributions	2025 - Present
Developed device trees and kernel patches for Nothing Phone (1), maintaining AOSP based custom ROM support for an active community of 20+ users.	
 root-my-nothing	2026
Developed a temporary root exploit for Nothing Phone (1) using CVE-2026-43499 (GhostLock).	
 NixOS Configuration & Dotfiles	2024 - Present
Declarative system configuration using Nix for reproducible development environments, maintaining and publishing 35+ custom Nix User Repository (NUR) packages (link).	
 Minepanel	2025 - Present
- Contributed to a full-stack Minecraft management platform (Next.js & NestJS), focusing on internationalization and codebase standardization. - Engineered a complete multilingual system (EN/ES) across the stack and resolved critical TypeScript/ESLint build errors.	

🏆 Awards

 Academic Excellence Award
2022
Received excellence award for best new students

🔧 Skills & Languages

 Security & Forensics: Wireshark, Nmap, Burp Suite, Ghidra, IDA, Volatility, Autopsy, YARA, Splunk, Frida, GDB
 Programming: Python, Bash, C, Go, Java, Kotlin, JS/TS, SQL
 Systems & Infrastructure: Linux, Android (AOSP), NixOS, Windows, Docker, Git, CI/CD, Nix, Ansible, Terraform
 Languages: Portuguese (Native), English (Fluent)

🏆 Cybersecurity Competitions

 Cybersecurity Challenge PT & ECSC	2026
Qualified through the CSCPT (link) to represent Portugal, and selected as Team Captain for the National Team at the 2026 ECSC (link).	
 BSides Lisbon CTF	2025
2nd Place - Competed in diverse security challenges demonstrating practical cybersecurity skills.	
 Security Team @ Técnico (STT)	2025 - Present
- Técnico's Student CTF Team - #1 CTF team in Portugal, 55th worldwide. Active member participating in numerous CTF competitions. - Specialization in forensics, web and reverse engineering challenges.	
 r4ph3cks CTF Team	2022 - Present
Founder & Leader of a 3-member university CTF team.	
 Personal CTF Write-ups	Present
Publishing detailed CTF write-ups and scripts at github.com/ang3lo-azevedo/ctfs.
