Ângelo Azevedo

Lisbon, Portugal ang3lo@azevedos.eu.org angelo-azevedo ang3lo-azevedo @ang3lo.01 +351 XXX XXX XXX

Computer Science student specializing in **cybersecurity**, seeking roles in **security engineering** and **vulnerability research**. Proven hands-on experience in **forensics**, **incident response**, and **platform hardening** through academic, red-team, and STT projects. Strong focus on security tooling and automation, backed by competitive CTF results and technical audits.

Education

Instituto Superior Técnico *2025 - Present*
M.Sc. in **Computer Science and Engineering** *Lisbon, Portugal*
Specialization: ***Cyber-Security & IT Systems*** **GPA: 18/20**

Instituto Superior de Engenharia de Lisboa *2022 - 2025*
B.Sc. in **Computer Science and Computer Engineering** *Lisbon, Portugal*

Experience

Teaching Assistant (CSF) *2026 - Present*
Instituto Superior Técnico (IST)
- Teaching Assistant for the **Cybersecurity Forensics (CSF)** course, actively preparing and grading the final course project for over 100+ students.

Forensics Instructor *2026*
Security Team @ Técnico (STT)
- Created and delivered **forensics classes** to 30+ STT team members, enhancing the team's incident response and analysis capabilities (*link*).

Red Team & Security Auditor *Feb 2026 - Present*
Er3bUs Security Team (Técnico)
- Led a comprehensive **security audit** of the GameCourse platform with a 5-member red team from STT (Security Team@Técnico).
- Discovered, triaged, and reported 4+ critical vulnerabilities in staging, delivering a detailed security report and remediation strategies.

Research Initiation Grantee *Oct 2025 - Present*
Instituto Superior Técnico (IST)
- Developing and maintaining the **OASIS website** (*oasis.tecnico.ulisboa.pt*), working cross-functionally as the primary portal for a research group of **20+ researchers**.
- Preparing to teach the upcoming **Experimenta o Técnico** initiative (*link*), developing educational materials for **robotics**, **game development**, and **satellites** activities.

Programming Teacher *Dec 2024 - Jun 2025*
SharkCoders
- Mentored and taught **Python** and **automation** to classes of **15+ children and teenagers** per semester, fostering a learning environment with empathy.

Projects

Voltage OS Android Contributions *2025 - Present*
- Developed **device trees** and **kernel patches** for Nothing Phone (1), maintaining AOSP based custom ROM support and system **reliability** for an active community of **20+ users**.

root-my-nothing *2026*
- Developed a **temporary root exploit** for Nothing Phone (1) using **CVE-2026-43499 (GhostLock)**.

NixOS Configuration & Dotfiles *2024 - Present*
- **Declarative system configuration** using Nix for reproducible development environments, maintaining and publishing **35+ custom Nix User Repository (NUR) packages** (*link*).

Minepanel *2025 - Present*
- Contributed to a full-stack **SaaS** Minecraft management platform (**Next.js** & **NestJS**), focusing on **internationalization** and **codebase standardization**.
- Engineered a complete **multilingual system (EN/ES)** across the stack and resolved critical **TypeScript/ESLint build errors**.

Awards

Academic Excellence Award
2022
Received excellence award for **best new students**

Skills & Languages

Security & Forensics: Wireshark, Nmap, Burp Suite, Ghidra, IDA, Volatility, Autopsy, YARA, Splunk, Frida, GDB
Programming & Scripting: Python, Bash, C, Go, Java, Kotlin, JS/TS, SQL
Operating Systems & Infrastructure: Linux, Android (AOSP), NixOS, Windows, Docker, Git, CI/CD, Nix, Ansible, Terraform
Languages: **Portuguese** (Native), **English** (Fluent)

Cybersecurity Competitions

Cybersecurity Challenge PT & ECSC
2026
- Qualified through the CSCPT (*link*) to represent **Portugal**, and selected as **Team Captain** for the **National Team** at the 2026 ECSC (*link*).

BSides Lisbon CTF *2025*
- **2nd Place** - Competed in diverse **security challenges** demonstrating practical cybersecurity skills.

Security Team @ Técnico (STT) *2025 - Present*
- Técnico's Student CTF Team - **#1 CTF team in Portugal, 55th worldwide**.
- **Active member** participating in **numerous CTF competitions**.
- Specialization in **forensics**, **web** and **reverse engineering** challenges.

r4ph3cks CTF Team *2022 - Present*
- **Founder & Leader** of a **3-member** university CTF team.

Personal CTF Write-ups *Present*
- Publishing detailed **CTF write-ups** and **scripts** at *github.com/ang3lo-azevedo/ctfs*.

Self-Hosted Infrastructure & Networking *2024 - Present*
- Administering a **Debian-based homelab** running **Docker/Portainer** to deploy and manage self-hosted privacy services (Nextcloud, Immich, SearXNG).
- Configured an **NGINX reverse proxy** for secure external access and implemented an automated **NAS backup strategy**.
